

Into the Unknown

We are living in conflicting, confusing, contradictory times. How can we all, individually and collectively, create a sense of new order out of the chaos and bring some equanimity to ourselves, each other, our organisations, and our planet?

2022 and beyond will be challenging to say the least. Individuals are being asked to be more self-managing, more entrepreneurial, and more adaptable. Let's create a realistic and powerful personal vision, for yourself, your business and our planet.

With inspiration from the book "**Trees of Paradise**", a powerful leadership story was born through working for preservation of a virgin rainforest in Papua New Guinea.

Into the unknown is an experiential seminar, discussing the 7 leadership skills discovered on a 7-day trek to a remote village.

Dive into the unknown and let go of your comfort zones, explore the unknown, and with it, explore the infinite possibilities of your growth as a leader.

Join us and discover the 7 active principles for the next phase of your evolution.

Who can Join:

Anyone with a desire to broaden their field of vision and onto the uncomfortable journey to self-exploration

Outcome:

At the end of this seminar, participants would be able to:

- feel the fear and do it anyway
- stay present and focused, one step at a time.
- understand their limitations and ask for help
- take bold steps/bring unprecedented change in their work culture
- design new ways/techniques for efficiency
- feel courageous and more self-confident.

Who is doing this workshop?

Pause Play is partnering with a UK-based organization - **Outstanding.Global** to deliver these workshops in India.

This workshop will be hosted by **Nigel Hughes (CEO, Outstanding.Global)**

Nigel will take you on this adventure that will focus on your core competency of Personal Leadership, what we call R.I.P. - Resilience. Innovation. Purpose. This is the ability to respond to changing circumstances in appropriate ways, making the most of your strengths, to create the outcomes you want.
